

An educational seminar for Local 1 and Local 63 Employers

New ANSI A92 Standard and How It Affects Contractors Who Own and/or Rent Lifts

WHEN/WHERE

Tuesday • March 17, 2020

DoubleTree Alsip Hotel (5000 W. 127th Street • Alsip)

7:30 am - 8:00 am Buffet Breakfast

8:00 am - 9:30 am - Program

9:30 am - 10:00 am - Q&A

A new ANSI A92 Standard takes effect on March 1, 2020, which is included by reference in many codes and regulations and therefore applies to almost every construction project. As revised, ANSI Standard A92 provides new training requirements for operators, supervisors and any employee working on an aerial lift, regardless of whether the equipment is owned or rented. Attend this breakfast workshop to find out how the law has changed and how it affects your company.

- Training requirements
- Inspecting, testing and maintaining the equipment
- Risk assessment plan
- Safe work procedures

SPEAKER: Paul Satti is the Technical Director of projects and research at the Construction Safety Council with over 23 years of experience in safety and health management systems. Paul holds a master's degree in Industrial Management from Northern Illinois University, is a Certified Safety Professional and Construction Health and Safety Technologist by the Board of Certified Safety Professionals and an authorized OSHA outreach trainer for construction. Paul brings a wide scope of knowledge to the class and is generous with his time, energy and resources.

FEES: There is no charge, but advance registration is required.
